II CHANGE OF SUBSCRIPTION MODEL

- Change of subscription model is possible on a monthly basis provided that the monthly model is used.
- For the yearly model a downgrading of subscription is possible with the end of your period of use.
- Upgrading the yearly subscription model is possible on a monthly basis to end of the calendar month. In this case the period of usage extends for one year starting with the month of change.
- The already paid subscription costs will be proportionally calculated with the unused calendar months.
- To change your subscription model contact us: office@tender365.energy.

III TRANSACTION COST FOR COMPLETED DEALS

- Transaction cost for completed deals will be calculated according to your subscription model.
- Transaction cost is paid by both buyer and seller.
- Transaction cost will be charged monthly.
- The following rules apply for the calculation of underlying reference quantity in MWh:

Product: Gas and Power	Relevant Product Characteristics
Flat delivery / Baseload / Peakload / Off-Peak	Delivery Quantity
Scheduled Delivery	Delivery Quantity
Flexible Delivery	Delivery Quantity, relating to 100% purchase
Temperature-based Delivery	Delivery Quantity (planned)
